

AAUP App Terms of Use

Effective Date: August 20, 2026

1. Acceptance of These Terms

These Terms of Use govern access to and use of the AAUP App, operated by Arab American University (AAUP).

By accessing or using the App, you agree to these Terms. If you do not agree, you should not use the service.

The App may be accessed through an AAUP-operated standalone interface or through an AAUP-approved artificial intelligence platform such as ChatGPT.

Additional terms and privacy policies may apply when the App is accessed through a third-party platform.

2. Purpose of the App

The AAUP App is an informational and educational tool that helps users explore AAUP academic programs.

The App may consider information such as:

- Certificate system;
- Certificate branch or classification;
- Academic or equivalent average;
- Core-subject average;
- Campus preference;
- Academic interests;
- Career goals; and
- Budget preference.

The App may identify:

- Programs for which the user appears preliminarily eligible;
- Programs requiring official certificate or classification review;
- Programs that do not appear to meet a published requirement; and

- Programs that may align with the user's stated interests or career goals.

3. Not an Official Admission Decision

The App does not:

- Guarantee admission;
- Issue an admission decision;
- Confirm certificate equivalency;
- Reserve a university seat;
- Submit an application;
- Replace an official application;
- Verify original documents;
- Determine scholarship eligibility;
- Register a student for courses; or
- Replace the AAUP Deanship of Admission and Registration.

All results are preliminary and informational.

Final admission eligibility depends on official AAUP regulations, certificate verification, document review, seat availability, required tests or interviews, and decisions made by authorized university personnel.

Users must confirm important information directly with AAUP before making academic, financial, relocation, or enrollment decisions.

4. Standalone and AI-Assisted Use

Standalone Use

The App may be used as a standalone tool through an AAUP-operated interface. In this mode, the user enters the requested information and the service applies structured AAUP program and admissions rules.

AI-Assisted Use

The App may also be used with ChatGPT or another AAUP-approved AI assistant.

The AI may help interpret the user's request, collect relevant information, invoke the App, summarize results, or answer follow-up questions.

AI-generated explanations may contain errors, misunderstand a request, omit important context, or present outdated information. The official AAUP admissions pages and authorized university offices remain the authoritative sources.

5. User Responsibilities

You agree to:

- Provide accurate information to the best of your knowledge;
- Review the complete report, including warnings and additional conditions;
- Confirm final eligibility with AAUP;
- Use the App only for lawful and appropriate purposes;
- Avoid interfering with the service or attempting to bypass its controls;
- Avoid submitting information that is unnecessary for academic-program matching; and
- Respect AAUP's intellectual-property, information-security, and acceptable-use requirements.

You are responsible for decisions made based on the preliminary information provided by the App.

6. Information You Should Not Submit

Do not submit:

- Passwords;
- One-time security codes;
- API keys;
- Bank or payment-card information;
- National identification numbers;
- Passport numbers;
- Student-portal credentials;

- Medical records;
- Copies of official certificates or identity documents; or
- Other sensitive information not requested by the App.

The current version of the App does not need this information.

7. Acceptable Use

You may not:

- Attempt to gain unauthorized access to the App or AAUP systems;
- Test, scan, or exploit vulnerabilities without written authorization;
- Avoid rate limits or security restrictions;
- Submit malicious code or automated abusive traffic;
- Use the service to misrepresent academic qualifications;
- Present a generated report as an official admission document;
- Copy, modify, resell, or falsely claim ownership of the service;
- Use the service in a manner that violates law, university policy, or the rights of others; or
- Use the service to collect information about other individuals without authorization.

AAUP may restrict or block access when it reasonably believes the service is being misused or threatened.

8. Accuracy and Availability of Information

AAUP aims to use current official program and admissions information. However:

- Admission requirements may change;
- Tuition and scholarship information may change;
- Programs may open, close, move campuses, or reach capacity;
- Official equivalency decisions may depend on individual documents;
- Information may not immediately reflect a newly issued decision; and
- Technical or human errors may occur.

The App may pause eligibility matching when its admissions dataset is outside its approved review period or application cycle.

Users should review the data-verification date shown in the report and consult official AAUP sources.

9. Fees and Scholarships

Any tuition, scholarship, or budget information displayed by the App is preliminary.

Displayed tuition may represent a starting rate, a rate after a listed scholarship, or a rate that depends on program, campus, academic year, eligibility, or university calculation.

The App does not create a binding fee quotation or scholarship offer.

10. Intellectual Property

The App, its interface, structured content, software, university branding, and associated materials are owned by or licensed to Arab American University unless otherwise stated.

Users may use generated reports for personal educational planning. No ownership of AAUP software, data, trademarks, logos, or institutional content is transferred to the user.

The App must not be presented as a product created, guaranteed, or endorsed by OpenAI. ChatGPT and related OpenAI services are third-party platforms through which the AAUP App may be accessed.

11. Third-Party Services

When you use the App through ChatGPT or another external platform, your use of that platform is also governed by its applicable terms and privacy policy.

AAUP is not responsible for:

- Changes made by a third-party platform;
- The availability of a third-party platform;
- Independent AI-generated content that is not returned by the AAUP App;
- The platform's account, subscription, or data-retention settings; or
- External websites not operated by AAUP.

12. Privacy and Security

Use of the App is subject to the AAUP App Privacy Notice and applicable AAUP information-security and privacy policies.

AAUP applies reasonable safeguards but cannot guarantee that any online service will always be uninterrupted, error-free, or completely secure.

AAUP applies information-security practices aligned with internationally recognized standards, including ISO/IEC 27001. The University has begun formal procedures toward obtaining ISO 27001 certification for its Information Security Management System.

13. Service Availability and Changes

AAUP may update, suspend, restrict, replace, or discontinue all or part of the App.

AAUP may change:

- Supported certificate systems;
- Program data;
- Academic rules;
- App features;
- AI integrations;
- User interfaces;
- Security requirements; and
- These Terms of Use.

The effective date will be updated when material changes are published.

14. Disclaimer

The App is provided for preliminary informational and educational purposes.

To the extent permitted by applicable law, AAUP does not guarantee that the service will be uninterrupted, error-free, complete, or suitable for every individual situation.

Nothing generated by the App constitutes a contractual admission offer, enrollment confirmation, scholarship decision, financial guarantee, or official academic record.

15. Contact and Support

For general questions:

Email: info@aaup.edu

Phone: +970 4 2418888

For technical support:

Email: support@aaup.edu

Phone: +970 4 2418888, Extension 1666

For AI governance or questions about AAUP artificial intelligence services:

Office of the Vice President for Artificial Intelligence

Email: vpai@aaup.edu

For official admission questions, contact the AAUP Deanship of Admission and Registration or use AAUP's official contact channels.

For complaints or feedback, use AAUP's official Complaints and Feedback page.
